The property has an alarm system, door sensors and a camera system as well, and it is equipped with electric aluminium shutters and mosquito nets. The electricity supply is supported by a 15 KW solar system, so the energy supply of the building is almost completely self-sufficient. It is heated and cooled by an automatic heat pump, underfloor heating and ceiling cooling. The room temperature can be controlled separately. The real jewel of the wellness area is the 3-person jacuzzi with a panoramic view of Lake Balaton built into the level of the terrace. The above mentioned terrace is also shaded by the climatic pergola of the type Umbroll.
