Fully Renovated Family Home for Sale. A tastefully renovated family home is for sale, where all major renovation works have been completed. New, thermally insulated plastic doors and windows have been installed, all fitted with roller shutters and mosquito nets. The entire plumbing, electrical, and sewage systems have been replaced, and three-phase industrial electricity has also been connected. The interior spaces feature elegant, neutral-toned finishes: ceramic tiles in the common areas and laminate parquet flooring in the bedrooms. Heating is provided by a solid-fuel boiler, but natural gas is also connected, and an air-conditioning unit ensures a pleasant indoor temperature. A drilled well provides an excellent water source for garden irrigation. The property is modern, in excellent condition, and ready to move in immediately.
