Energy efficiency

One of the largest building plots in the region is currently for sale. It is buildable with 18%, 3 houses fit well on the area. The plot is located in the upper part of Cserszegtomaj and borders the national park. Peace and privacy are given, there are only a few neighbors without direct contact. From the property you have a very nice view of the Kis-Balaton. The property has been cleared of undergrowth. Electricity, water and sewers are on the property. The neighboring property is also for sale, so that the existing area can be expanded to almost twice as much.
